EDUCATION

University of Arizona, Tucson, AZ

Bachelor of Science in Computer Science (August 2016 - May 2020)

GPA: 3.8

Minor in Business Administration

Minor in Information Science

SKILLS

Languages: TypeScript, JavaScript, C#, Python, Java

Technologies/Paradigms: Git, GitHub, SQL, SSR/SEO, TDD, Lazy Loading, Yarn/NPM

DevOps: CI/CD, Containers, Docker, Docker Compose, Github Actions

EXPERIENCE

OutVoice Remote

Software Engineer (October 2021 – Present)

- Lead front-end developer for various (primarily Angular + TypeScript) web applications
- Strong focus on commonly ignored development areas including initial bundle size, dependency version upgrades, and project maintainability

AstreaX Tucson, AZ

Software Developer (June 2020 – October 2021)

- Full stack C# .NET/Angular web application development
- Planned and carried out large scale refactoring efforts to increase performance, reliability, and security while maintaining backwards compatibility
- Created and maintained systems and onboarding documentation to ensure smooth developer startup experience

Bechtel Reston, VA

Security Automation Intern (June 2018 – August 2018)

- Developed internal tooling for security automation using Python 3 with a goal of increased team productivity and reduced data wrangling responsibility
- Monitored, reviewed, and cataloged cyber threats experienced at the company (phishing, domain name spoofing, malicious external traffic)

PUBLIC WORKS

habitapper.com — Snapchat streak like tracking for daily habits

- Built using TypeScript, NextJS, React, React Bootstrap, PostgreSQL and Vercel
- [Source](#)

samueldebartolo.com — Portfolio website for local Tucson architect
